OUR STORY

Melvin Marsh International were founded by Ms. Flora Mutahi. Her passion for tea influenced her to find a range of teas that was met with exceptional flavours. Before Melvins, the Kenyan tea market provided just one packaged option — unflavoured tea. She believed there were many tea lovers like her who craved something refreshingly different — fun and flavourful teas which they could enjoy every day.

Kenyan tea is widely considered some of the best in the world because of its distinctive taste, quality and characteristics. Kenyan teas' taste and colour, is traditionally described as a "brisk", "full bodied" flavour. The Melvins logo guarantees a product of superior quality using the freshest harvest. We consistently check the quality, to guarantee that each cup tastes as good as the last all year round. Tea is a natural source of antioxidants which promotes good health and form an important part of a healthy diet.

In 1995, we created Kenya's very first flavoured tea, Melvins Tangawizi (Ginger) Chai, which was an instant hit. We now have a full range of Melvins Products which include: black and green teas, fruit and herbal infusions, orthodox, purple, green, white, instant tea and salts and seasonings.

Our Guarantee

Melvins Teas are 100% natural — no artificial flavours, additives, or preservatives of any kind. Just the finest tea from the Kenyan highlands grown without pesticides or chemicals. Blended with natural herbs, spices, botanicals, sourced directly from Kenyan farmers and freshly ground to our customers taste.
